

INVEST IN A SUSTAINABLE FUTURE

**RAW
IDEA**

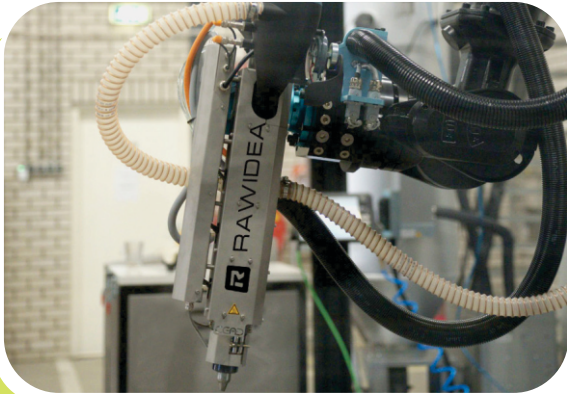

DIGITAL MANUFACTURING HUB

**Attention! This investment falls outside AFM supervision.
No prospectus required for this activity.**

INNOVATING LARGE-SCALE MANUFACTURING

RAW Idea pioneers the next generation of industrial production through advanced large-scale 3D printing technology. By utilizing recycled materials and automated processes, RAW Idea offers sustainable manufacturing solutions designed to meet the demands of tomorrow's industries.

SUSTAINABLE TECHNOLOGY WITH CIRCULAR ECONOMY PRINCIPLES

At the core of our process is the efficient transformation of recycled polymers into durable, high-quality products. This approach minimizes waste, reduces carbon footprint, and ensures that materials can be repurposed at the end of each product's lifecycle.

FROM DIGITAL DESIGN TO FUNCTIONAL PRODUCT

Our technology seamlessly converts digital designs into tangible products with precision and speed. From marine vessels to architectural components, RAW Idea delivers customized solutions that meet both technical and environmental standards.

DUTCH EXPERTISE WITH GLOBAL POTENTIAL

Headquartered in the Netherlands, RAW Idea combines technical excellence with a forward-looking vision for global expansion. By investing in innovation and sustainability, we are setting new benchmarks for responsible industrial manufacturing worldwide.

INVEST IN RAW IDEA

Join us in revolutionizing production with additive manufacturing. At RAW Idea, we push the boundaries of industrial 3D printing, creating sustainable, tailor-made solutions that reshape industries. Your investment helps us scale digital manufacturing, optimize 3D printing technology, and expand into new markets. As we grow, you benefit from our success and receive cumulative dividends.

CERTIFICATES

From € 1,000

Minimum: 1 year.

You will receive 5 to 7,5% interest per year.

Invest

BONDS

From € 100,000

Minimum: 3 year.

You will receive up to 9% interest per year.

Invest

DIRECT

From € 500,000

You will receive 7% interest per year, with lien on the printer. Term is negotiable.

From € 2,000,000

Minimum term of 5 years. Return is negotiable.

Invest

Important! Participating in a company involves risks. You may lose your investment, and past performance does not guarantee future results. Please consult the information document and attachments available on the website. Intended for investors with knowledge of the 3D printing market. The risks include all common risks associated with a scale-up company in the manufacturing industry. We use the latest 3D printers and operate in a rapidly evolving sector. It is essential to thoroughly research the company before making an investment decision.

EXCLUSIVE REWARDS FOR VISIONARY INVESTORS

By supporting our journey in additive manufacturing, you become part of the future of digital production and large-scale 3D printing. To show our appreciation, we offer a range of carefully selected rewards that showcase the capabilities of our technology:

- **€ 1,000 investment** – Receive a 3D printed tulip, a refined symbol of Dutch heritage and innovative craftsmanship.
- **€ 5,000 investment** – Receive a custom 3D printed Cajón, a percussion instrument crafted with industrial precision, blending creativity, technology, and sound innovation.
- **€ 20,000 investment** – Experience our innovation during an exclusive cruise on our 3D-printed boat at the prestigious Harbour Club in Vinkeveen.

TRANSPARENCY IS AT OUR CORE

With De Bewaarder, your personal investor portal, you have full insight and control over your investment. Designed for complete transparency and security, it provides real-time access to key updates, essential documents, and performance insights.

PARTNERSHIP IN SUSTAINABILITY

At RAW Idea, we believe collaboration is the key to sustainable innovation. By working closely with material specialists, industry leaders, and research institutions, we continuously develop advanced solutions for sustainable 3D printing and industrial production.

Our mission is to redefine manufacturing through large-scale 3D printing, enabling more efficient, scalable, and sustainable production methods. Through innovation and strategic partnerships, we are setting new industry standards and shaping the future of manufacturing.

As we continue to expand, we're looking for like-minded entrepreneurs to bring our vision to new markets. Through our exclusive franchise program, you'll have the opportunity to be at the forefront of large-scale 3D printing while building a successful business.

As a franchise partner, you'll benefit from:

- A proven business model tailored to 3D printing
- Comprehensive training and ongoing support
- Brand recognition and marketing assistance
- Exclusive territory and growth potential.

MEET OUR TEAM

Joyce Pont
General Director

Zander Tocher
Head of product development

Alireza Badiee
Head of production

Reza Fattahi
Design & Production Engineer
